Clear, Peachy Skin
Awaits Anyone Who
Drinks Hot WaterSays an inside bath, before breakfast
fast helps us look and feel
clean, sweet, fresh.Sparkling and vivacious—merry,
bright, alert—a good, clear skin and
a natural, rosy, healthy complexion
are assured only by pure blood. If
only every man and woman could be
induced to adopt the morning inside
bath what a gratifying change would
take place. Instead of the thousands
of sickly, anemic-looking men, women
and girls, with pasty or muddy com-
plexions; instead of the multitudes of
"nerve wrecks," "rundowns," "brain
fags" and pessimists, we should see a
vibrant, optimistic throng of rosy-
checked people everywhere.An inside bath is had by drinking
each morning, before breakfast, a glass
of real hot water with a teaspoonful
of limestone phosphate in it to wash
from the stomach, liver, kidneys and
ten yards of bowels the previous day's
indigestible waste, sour fermentations
and poisons, before putting more food
into the stomach.Those subject to sick headache, bil-
iousness, nasty breath, rheumatism,
colds; and particularly those who have
a pallid, sallow complexion and who
are constipated very often, are urged
to obtain a quarter pound of limestone
phosphate at the drug store which will
cost but a trifle, but is sufficient to
demonstrate the quick and remark-
able change in both health and ap-
pearance, awaiting those who practice
internal sanitation.—(Adv.)**MUST DESTROY FOREVER

expected him to decide quickly whether
the note, with its promises in support
of the president's views.Informal opinion as to the probable
attitude of the president covered a
wide range, though it did not differ on
the great point that immediate peace
is not at hand and that however sincere
the German overtures may be no
armistice will be agreed to except upon
conditions of surrender that will de-
stroy forever the power of the kaiser's
war machine for harm.

NERVOUS RUN-DOWN WOMAN

Tells How Vinol Creates Strength

Duked, Tenn.—"I live on a farm and
keep house for six in my family. I got
into a nervous, run-down condition, so
it seemed as though I would die. A
friend advised me to try Vinol. I have
been greatly improved by its use and
am better and stronger in every way."

—Mrs. H. H. Goodwin.

The reason Vinol was so successful
in Mrs. Goodwin's case is because it
contains beef and cod liver peptones,
iron and manganese peptones and
glycerophosphates, the very elements
needed to build up a weak, run-down
system and create strength. For sale

gists everywhere.—(Adv.)would be made and the German armies

thing about us and is probably the
most easily damaged by bad or care-
less treatment. If we are very care-
ful in hair washing, we will have vir-
tually no hair troubles. An especially
fine shampoo for this weather, one that
brings out all the natural beauty of
the hair; that dissolves and entirely
removes all dandruff, excess oil and
dirt; can easily be used at trifling
expense by simply dissolving a tea-
spoonful of Canthrox (which you can
spoonful of Canthrox) in a cup of hot
water. This makes a full cup of
shampoo liquid—enough so it is easy
to apply it to all the hair instead of
just the top of the head. This chem-
ically dissolves all impurities and
creates a soothing, cooling lather.
Rinsing leaves the scalp spotlessly
clean, soft and pliant, while the hair
takes on the glossy richness of natural
color, also a softness which makes it
seem much heavier than it is. After
Canthrox shampoo, arranging the hair
is a pleasure.—(Adv.)

Two Deaths in Charleston.Charleston, Oct. 22.—(Special.)—
There have been only two deaths here
from the influenza, both prominent
men. Lum Ingram, dairyman, known
all over East Tennessee, and Oscar Ep-
erson, merchant, are dead. Mr. In-
gram died first. He was ill eight days.
Both cases were the same. Each de-
veloped pneumonia.There have been about 400 cases
here, but only the two deaths. The
doctors have labored constantly, and
the people have exercised every care
and precaution. There are no public
gatherings of any nature, and no busi-
ness transacted, except that which is
necessary. There is very little visiting,
especially where there is sickness. The
number of cases is decreasing, but the
people are not relaxing their precau-
tionary measures.The Richmond Hosiery mill, which
was closed last week, has decided to
remain closed this week.**TOOK OUT DREADFUL SORENESS.**When the kidneys are weakened or

monia commission last night were rou-
singly enthusiastic by authoritative re-
ports of startling cures of apparently
dying persons, says the Chicago Tri-
bune.The treatment has been used success-
fully in a long series of cases at the
naval hospital at Chelsea, outside Bos-
ton, and first-hand information, based
on interviews with the physicians who
originated and used the method, has
brought to the commission by Dr. Her-
man N. Bundesen, who was sent east by
Health Commissioner John Dill Robert-
son.In a word, the treatment consists of
the injection of a serum extracted from
the blood of persons who have recovered
from the influenza-pneumonia. And the
commission discussed the possibility of
obtaining a supply for local use in ex-
treme cases by volunteers from the
ranks of the jacksies at Great Lakes and
the soldiers of Camp Grant, probably 20,
000 of whom have passed through the
disease.The commission emphasized that by
no means will it be possible to produce
a supply of serum sufficient to treat
every person affected by the epidemic in
Chicago or even a large percentage of
them. But the members did see in the
discovery a chance to save many human
lives.They also wanted it made plain to the
public that the serum is absolutely a
different article from the vaccine which
is to be manufactured under the com-
mission's direction after the method of
Dr. E. C. Rosenow of the Mayo founda-
tion. That vaccine is a preventive and
is administered to persons who are well.
The serum is a cure and is adminis-
tered to sick persons.One other point of importance was
dwelt upon—the necessity of fresh air,
both as a preventive and as an aid
toward a cure. All Boston is talking
about the "Brooks fresh air treatment,"
and a special commission has found
fresh air not only protects exposed at-
tendants, but also considerably reduces
mortality.There are other hospitals in the east
that are using the curative serum," Dr.
Bundesen said, "but I believe it origi-
nated at the Chelsea naval hospital,
where it is being used with startling suc-
cess by Maj. McGuire and Capt. Redden.**KEEP HEALTHY!**

SICK HEADACHE

Mississippi Lady Recites Ex-
perience in Pre-
vention of Serious Sickness
and Tells How Quick Re-
lief Follows Use of
Black-Draught.Edinburg, Miss.—Mrs. Lula
Lauchlin, who lives a few miles
from this town, recently made the
following statement in regard to the
old Black-Draught, the old, reliable
family liver medicine:
"We have used Theodor's Black-
Draught in our family for years,
a liver and stomach medicine. I have
used it for indigestion, gas on the
stomach, for bloating and a disag-
reeable taste in the mouth.
A couple of good doses will relieve
sick headache and make you feel
a new person.
I keep it, especially in the winter
for grip and colds. It has been a
wonderful help to us.
Black-Draught has saved us many
good dollars in doctor bills, as a
deal of sickness comes from consti-
pation and torpid liver which can
be relieved by so simple a remedy
Black-Draught. I praise it to all
friends."
Torpid, or slow-acting liver, is
commonest form of liver trouble
with in America. The liver does
its duty in helping the diges-
tion of food and regulating the bowels.
Theodor's Black-Draught has
found a very valuable remedy for
rampages of the liver and stom-
ach not only in the case of this Missis-
sippi family, but in thousands of simi-
lar cases.
Try Black-Draught.—(Adv.)**RHODES-MAHONEY**
